

## Bill of Materials

Detailed Bill of Materials (BOM) files are posted on the web:

### [Reflector](#)

<http://www.ffwdm.com/solar/gen2/BOM-reflector.pdf>

### [Motor drive](#)

<http://www.ffwdm.com/solar/gen2/BOM-motor-drive.pdf>

### [Sensor](#)

<http://www.ffwdm.com/solar/gen2/BOM-sensor.pdf>

### [Drive linkage](#)

<http://www.ffwdm.com/solar/gen2/BOM-drive-linkage.pdf>

### [Battery box](#)

<http://www.ffwdm.com/solar/gen2/BOM-battery-box.pdf>

I suggest you download and print copies of each to have at hand for reference as you read the section on each.

I have not “metrified” the BOMs. The difficulty of doing so is beyond my capabilities. This is not as simple as changing dimension from Imperial to Metric as I must source new components that work together.

I apologized for this on Page 8.

Perhaps with my readers' feedback on recommended metric parts, we might even have a **gen3** in future which is truly metric?
